## Buyer is currently importing or has imported from the following wineries:

Casto pequeno, Sp; Finca la Estacada, Sp Botter, It; Femar Vini, It Les Yeuses, Fr; Castel/Patriarche Fr

## Aims and objectives:

We need to review our portfolio of low- mid priced Italian wines. We have experienced volatility in pricing and quality (especially in Italy) recently and we want to look at the region from close up. The problems in the Eurozone are in some ways responsible for this however we do not think it is an excuse for poor wines and inflated prices. UK bottling by large UK based companies is increasingly the way forward for medium size regional merchants like us with sharper branding and easier logistics however it is not a trend we particularly welcome and we would like to see what is available on the traditional ex-cellar market. So we come to this trip with intent but with some serious concerns.

Another side of the trip will be seeing some local vineyards really to improve my knowledge and understanding of these wines.
